Aug 17, 2021 – Sep 21, 2022 (13 months)

Project Status
Completed

01 / About Us

Solid Foundations. Lasting Value.

Since 2005, Bend Yapı has combined modern architecture with sound engineering to provide construction and contracting services in energy, infrastructure, public works and living spaces.

Bend Yapı İnşaat Taahhüt Sanayi ve Ticaret Limited Şirketi was founded in 2005 by Erdal Dalğa. Since our founding, we have shaped our construction and contracting work around safe structures, high-quality workmanship and an engineering mindset that is open to development.

For us, a project is more than a structure to be built. Its intended use, its surroundings, its technical requirements and the expectations of the investment form a whole. Throughout the process from design to turnkey delivery, we aim to keep this whole in view and carry our approach to quality into every stage of the work.

Water structures, high-rise housing, shopping malls, rehabilitation centers and school construction are the main areas in which our company has built its expertise. Our project portfolio, which also includes power plants and infrastructure works, shows the hands-on experience we have gained across different building types.

04 / Our Services

Different Needs. One Engineering Mindset.

01 **Power Plants**

We approach the structural and infrastructure needs of power generation facilities by evaluating technical requirements and site conditions together.

02 **Residential and Shopping Malls**

In housing, shopping and lifestyle centers, we bring architectural needs together with sound engineering and quality workmanship.

03 **Dams and Hydropower**

We develop construction solutions for dams, hydropower plants and water infrastructure suited to site conditions and the function of the structure.

04 **Public Works**

In educational, healthcare and public service buildings, we take an approach that considers function, safety and workmanship quality together.

08 / Data Security

Your Data Is Safe.

We protect the information you share with us while discussing your projects with the same care we bring to our work. Below is a short summary of how we process and protect your personal data.

KVKK Compliance

Your personal data is processed in accordance with the Turkish Personal Data Protection Law No. 6698 (KVKK), only for specific, explicit and legitimate purposes, limited and proportionate to those purposes. The data controller is Bend Yapı İnşaat Taahhüt Sanayi ve Ticaret Limited Şirketi.

Privacy and Cookies

Information shared during quotation, project and communication processes is kept confidential and shared only with authorised persons to deliver the service and meet legal obligations. Your data is never sold. Analytics cookies on our website run only with your consent.

Data Security

Your data is transmitted over encrypted connections, access is restricted by authorisation and our systems are kept up to date. Data whose retention period has expired is deleted, destroyed or anonymised in line with the law.

Your Rights

Under Article 11 of KVKK you have the right to learn whether your data is processed, to request its correction or deletion and to object to its processing. You can send your requests to info@bendyapi.com.tr; they are answered within 30 days at the latest.
